FORECAST, HEAT

WHIT JOHNSON (ABC NEWS)

(OC) We do wanna turn now and get a check of the weather once again. Go back to Somara Theodore in Texas. Somara, good morning.

GRAPHICS: FORT LAUDERDALE, FLORIDA THIS MORNING

SOMARA THEODORE (ABC NEWS)

(OC) Good morning. So, here in Texas, we're still reeling from the flooding we've seen, but it's a different story for our friends in Florida. Take a look at this live shot, Fort Lauderdale. In fact, if the waves weren't moving, I would think this is a still picture, so picturesque. Today there in Fort Lauderdale, they're forecasted to reach 83 degrees. That heat ain't nothing compared to what's coming at the end of the week. So let's talk numbers, shall we?

GRAPHICS: HEAT BUILDS IN

SOMARA THEODORE (ABC NEWS)

(OC) As we head through the top of the workweek, things are cool. Chicago, upper 50s, low 60s. But by Tuesday, 75 degrees in Chicago, Nashville 84 by Tuesday. Kansas City in the upper 70s, even New York City getting in on some of that heat. And what we're looking at towards the end of the week is actually, potentially, our first major widespread heatwave of the season. We could see triple digit temperatures by Wednesday. That's a look at the forecast across the country. Let's see what's going on a little closer to home.

GRAPHICS: NATIONAL MAP

SOMARA THEODORE (ABC NEWS)

(OC) And that's a look at your local forecast. You guys, in New York City, where you are, my pick day of the week is gonna be Tuesday. Should be pretty dry, some bits of sunshine and very comfortable temperatures.

GIO BENITEZ (ABC NEWS)

(OC) I was hoping you'd say Monday because of our...

JANAI NORMAN (ABC NEWS)

Why?

GIO BENITEZ (ABC NEWS)

...big event Monday, here on "GMA."

JANAI NORMAN (ABC NEWS)

Oh, oh, 'cause he's got that big thing.

GIO BENITEZ (ABC NEWS)

(OC) Yes, on top of the Empire State Building.

SOMARA THEODORE (ABC NEWS)

(OC) All right. Let me see what I can do, Gio. Let me see what I can do.

WHIT JOHNSON (ABC NEWS)

(OC) There you go.

JANAI NORMAN (ABC NEWS)

(OC) Let me see what I can do. Let me call up Mother Nature. Thank you, Somara. Let me see what I can do.
